Objective

Seeking full time employment as a computer programmer upon graduation in May 2015 at a fast moving company with opportunities to learn quickly and solve problems.

Education

Grove City College – Grove City, PA

BS in Computer Science – May 2015

Experience

Computer Programmer – Solo Labs, Kutztown, PA – Summers of 2012, 2013, 2014

Developed a PHP MVC system which utilizes Active Directory authentication

Independently created and designed a web interface using HTML and Perl with minimal supervision

Worked with supervisors to ensure that the final product would meet specific criteria for the project

Employed problem solving skills to properly utilize limited screen real estate

Web Design Intern – NewSpace Global – February 2013 to May 2013

Worked as part of a team to design and implement updates to the company website

Collaborated with other online publications and coworkers to rollout a monthly online journal

Worked to refine and redesign an HTML email template for monthly announcements

Technical Skills

Languages – C++ (STL, DirectX), PHP, Perl, Python, C#, Java, VB.Net, Objective-C

Technology – iOS Programming, Model-View-Control (MVC), Object-Oriented Design, jQuery, OpenGL

Databases – MSSQL

Operating Systems – Windows, Android, iOS, and Linux

Activities

Webmaster – Grove City College Journal of Law and Public Policy

Varsity Cross Country – Senior Captain, NCAA Student Athlete

Interests

Running, ballroom dancing, reading and serving on missions trips
